Seven pillars of **SOLDIERS**

Courage | Integrity | Loyalty | Commitment | Professionalism | Patience | Discipline

Courage

Courage is not the absence of fear, instead, it is the ability to face fear without being feared. Play your game with full courage, without fearing the result of your game.

Integrity

Integrity is the quality of being honest and having strong moral principles. Principles and honesty are two things that make up a man's character. They are the deciding factors of the other characteristics in a man.

The idea of integrity is to create a mind out of honesty and morals.

Loyalty

Loyalty gives power and motivation to usher one's duty in life. As a player, it is very important to have loyalty towards the team that we play, and ourselves. Loyalty to a good action, institution, purpose or person can take a person to great heights.

Commitment

A player always has this emotion of selfless commitment. Self-less commitment is simply putting everyone before self. In the case of players, it is always the team.

Professionalism

Professionalism creates integrity and discipline. Professionalism is action with discipline and rules. Always follow team rules, game rules and Captain's instructions. It creates a sense of confidence, maturity and value to the team.

Respect your opponent team is a great way of showing your professionalism.

Patience

Patience is the processing time taken by the results after the right actions. Not all results come immediately, sometimes one has to wait for the desired results. That is why we should have patience in life, and it is one of the strongest characteristics we can inherit from a cricketer.

If the captain is decided to change your batting/bowling order, it doesn't mean you are poor performer. In **SOLDIERS** who ever we select they all are cricketers. Believe in yourself, be patient, your turn will come.

Discipline

Discipline is the most important characteristic of any player. Discipline plays a huge role in framing a man's life. Discipline and hard work are responsible for the formation of a good cricketer. Hard work includes working on your fitness and training on cricket drills to improve your form. This will give you great level of confidence while playing.

Discipline is what makes a cricketer out of a man.
